PROFESSIONAL PROFILE

I am a venezuelan Graphic Designer. I worked for many international firms for years. I have strong ability to visually conceptualize abstract ideas. I break the communication barriers with intelligent design solutions. I strongly know the meaning of the words: Creativity, Responsibility and Efficient. I have led groups of designers. I know to keep control in a strong pressure to get accurate results.

I am willing to learn every day, for me a customer satisfaction is the first. I dream with fonts, to find new color, and a 4th dimension of the objects.
